In the century closes the debt will be enthat of any other nation-\$28. It is \$218 in France, \$100 in the United kingdom, \$79 in Italy, \$63 in Germany, Russia. In England, with free trade, the rate of taxation between 1870 and 1800 was nearly 25 per cent, while in the United States under protective duties, taxation decreased 10 per cent fer the same period. The per capita debt in 1865 was \$75. The reduction to 28 has been made through the proctive system. Until June, this year, an aggregate of \$80,000,000 in gold has been exported to Europe. Already the refluent stream is pouring back from Europe at a rate that will exceed \$100,000,000. In the United States are peace and plenty; in Europe famine prevails and war is the constant mensee.
